

INSTALLATION INSTRUCTIONS

Battery Installation

1. Insert a coin or finger nail into the slot on either end of the blue lens cover to remove.
2. Install the 2 “AAA” batteries (+, -). Make sure the blue O ring is properly seated and replace the cover so it snaps into place.

Seat Post Installation

1. Attach mounting bracket to seat post with the rounded end of the clip pointing downward. Tighten hand nut until secure.
2. Attach taillight with the rounded end of the clip pointing downward. Slide the rounded end on the clip downward into the grooves on the mounted bracket until it snaps into place.
3. To remove the light, press the rounded end on the seat post mounting bracket away from the light and slide the light up.
